

GatorDock

Marine Access Solutions

Bristol Marina Pier

Charleston, South Carolina

PROJECT SUMMARY

The City Marina Company created a large, multi-use facility by choosing GatorDock. This all-encompassing area provides lounging under the gazebo, fishing from the pier, access to parking and other facilities as well as marine access. The client was so impressed with the custom options, quick turnaround and quality of product that a second phase of the same design was installed the next year.

Installation
2008 and 2009

Project for
City Marina Company

Features
Phase I
12' x 80' DR1/Bridge
8' x 80' DR1
12' x 245' Fixed Pier
20' x 30' Gazebo

IPE Hardwood Decking
Phase II
The exact same design was duplicated, including the bridge, DR1, Fixed Pier and Gazebo to provide additional access options to floating docks from the main parking area.
