

CULLINAN RANCH KAYAK LAUNCH

VALLEJO, CALIFORNIA
Project Highlight

Installation	2013
Project for	U.S. Fish and Wildlife Service
Features	Versi Launch Kayak Dock 80 ft DRI Gangway Pier with Gator Fishing Rail TimberTech Docksider Decking

Project Summary

This tidal wetlands restoration included a fishing pier and kayak launch system. The U.S. Fish and Wildlife Service was looking for a sustainable solution for this salt marsh environment. Designed for long life and maximum durability, the project features Gator's Versi Launch kayak dock design and a DRI Gangway. Gator's popular fishing rail was also part of the ADA compliant pier creating ideal access sized for children and adults.
