

Lake Ridge Park
Lake Ridge, Virginia

PROJECT SUMMARY

Creating a marina accessible to everyone was just a mere concept for the Prince William County Parks & Recreation Commission when the team at GatorDock became involved. With our expertise and funding provided by the Wounded Warrior's Project, the ADA accessible kayak launch came to life. Transfer benches, a custom feature unique to this installation, gives users the confidence to independently board their watercraft. Paired with a hybrid design of GatorDock's most popular launching systems, descending into the water is done with stability and ease.

Installation
2013

Project for
Prince William County Parks and Recreation Commission
